## About the Arizona State Library, Archives and Public Records

The Arizona State Library, Archives and Public Records, a division of the Secretary of State, is committed to providing Arizonans access to information about their government, their state, and their world by offering content in a variety of formats, preserving Arizona's history for future generations, and empowering local institutions to engage their communities in learning. We value accessibility, preservation, customer service, community engagement, and collaboration.

With support from federal and state funding, Library Services are provided to Arizona residents through four branches:

- **Arizona Talking Book Library** continues the love of reading and access to library resources for visually and physically disabled Arizonans by providing books, magazines and other library resources in alternate format at no cost to eligible users.
- **E-rate** helps libraries obtain affordable bandwidth to access digital resources.
- **Library Development** empowers Arizona libraries to offer excellent customer service through consulting, grant funding, resources and training.
- **State of Arizona Research Library** connects Arizonans and people around the world to unique Arizona materials, including books, newspapers, periodicals, and maps available in print and online in the Digital Arizona Library.

This annual collection of Arizona Public Library Statistics gathered from the public and tribal libraries of the state is one of the resources provided by Library Development. The goal is that this data with a brief analysis and summary will assist libraries to:

- Analyze community needs.
- Plan services.
- Use data to inform budgets and grant applications.
- Track their data over time.
- Compare their data to that from other libraries serving similar populations.

Arizona Public Library Statistics are on the web at <https://azlibrary.gov/libdev/programs-services-and-tools/arizona-public-library-statistics>.

The Arizona State Library, Archives and Public Records provides these additional services:

- **Archives and Records Management** collects, preserves and makes available permanent public records, historical manuscripts, photographs and other materials that contribute to the understanding of Arizona history; also administers the management of public records throughout state and local government in Arizona.
- **Arizona Capitol Museum** celebrates Arizona's vibrant cultural heritage through history.

## Arizona Public Libraries: Looking at the Numbers (2017)

**45.3 MILLION**

Libraries in Arizona saw a lot of use in 2017 with customers checking out a combined 45.3 million books, DVDs, and music CDs. That works out to 6.5 items for each person in the state.

**24.3 MILLION**

Arizona libraries were a popular destination last year with more than 24.3 million visits. That's almost 460,000 visits per week, more than Walt Disney World's Magic Kingdom.

**9.2 MILLION**

Looking for something to do? Arizona libraries have a combined 9.2 million books, movies, and music CDs for you to check out.

**4.7 MILLION**

Computer access remains as important as ever as seen by the over 4.7 million sessions logged at Arizona libraries' 5,490 public access PCs.

**1.6 MILLION**

Libraries are more than just books, music, and movies. Last year library programs saw attendance at over 1.6 million for their over 84,000 programs.

## **Observations and Trends**

### **From the 2016-17 Arizona Public Library Data Survey**

In 2017, Arizona public libraries provided access to more than 9.2 million books, CDs, and DVDs; 84,000 library programs; and almost 5,500 computers. In addition, they offered hundreds of thousands of e-books, audio books, and digital music files; thousands of periodicals; and access to online reference materials.

Arizona public libraries saw small increases in two of the areas traditionally used to measure successful library services -- the number of registered users and total circulation. Still, the way people use public libraries continues to evolve. For the fifth year in a row, library visits went down while program attendance went up. This year, libraries reported twice as many Wi-Fi sessions as public internet computer sessions.

This report includes information on 91 public and tribal libraries, which operate a total of 222 library buildings and 11 bookmobiles. Approximately 94% of municipalities in Arizona have public libraries, as do many unincorporated areas. This report documents the services that Arizona libraries provide to their communities, and shows how Arizonans use those services.

The brief observations that follow are divided into sections on budget, staffing, collections, service measures and programs. The bulk of this report consists of statistical tables and definitions.

### **Budget**

This year, operating revenue exceeded operating expenditures by almost \$14 million across the state. Total capital revenue and expenditures in general decreased this year, although the Desert Foothills Library, Flagstaff City-Coconino County Public Library, and Sierra Vista Library all oversaw capital improvement projects in 2017.

Local and county governments continue to provide 95% of the operating revenue, although federal revenue increased 66.5% this year from \$1.1 million to \$1.8 million.

### **Staffing**

Arizona libraries added almost 100 new full-time employees this year, bringing the total up to 2,114. Librarians continue to make up 27% of Arizona's public and tribal library staff members, but the percentage of those with a graduate degree from an American Library Association accredited program fell slightly this year.

### **Collections**

Libraries reported decreases in physical holdings across all formats. Spending on new materials went up, particularly for electronic materials, which accounted for more than 30% of total collection expenditures, and this investment appears to be reflected in skyrocketing circulation of those collections.

### **Service Measures**

For the fifth year in a row, library visits per capita decreased slightly from 3.7 to 3.5, while program attendance increased. However, registered users increased by 3%, slightly outpacing the population growth of the state as a whole. Reference transactions went up because several libraries reported numbers in this area for the first time in years. Arizona libraries answered 2.5 million questions this year.

As previously stated, the total circulation of all library materials was up slightly this year. Circulation of physical materials continues to gradually decline, but electronic circulation increased 39% this year, from 5.5 million to almost 7.7 million. Physical circulation declined just over 2%, from 38.6 million to 37.6, but still accounts for 83% of the total circulation.

Public internet computer usage declined 16% this year, while wireless sessions increased more than 27%. This is the fourth year libraries have reported their wireless usage, and last year it exceeded public computer usage

for the first time. This year it was more than double, with 10.8 million Wi-Fi sessions compared to 4.8 million computer sessions.

## **Programs**

Storytime and children's programming makes up 75% of library programming, and attendance at these events held steady this year. However, both the number of young adult programs offered and young adult attendance increased more than 20% this year.

## **Cautions and Considerations**

For the purposes of this report, we calculate both "core population" and the population of the "legal service area." The "core population" excludes municipalities that may be within a county library district, but operate their own libraries; reservation populations if the library district has no branches on the reservation; and prison populations. We used the "core population" to calculate per capita numbers for individual libraries. This calculation impacts the county library districts where there are large reservations or municipal libraries (Apache, Navajo, Maricopa, and Yavapai). Statewide per capita numbers are calculated using the total state population.

The Institute of Museum and Library Services is expected to release a national report on FY2017 in 2019. The information presented in this report, and the information presented in that future report, may have some minor differences. If a participating library indicates that they provide a service/collection, but doesn't have the information to respond to the data, IMLS imputes that data at the unit level. The imputed number is included in statewide totals and per capita number. For the purposes of this report, no imputed data has been included. If a library did not provide a response to a measure, a zero was calculated into the state total – which decreases the statewide total and creates a lower per capita number.

## Historical Background and Finding Previous Data Sets

The Arizona State Library has been collecting public library statistics since at least 1966. The State Library joined with other state libraries in the U.S. beginning in 1989 to collect data at the national level. The national survey was administered by the National Center for Education Statistics, with the partnership of the National Commission on Libraries and Information Science, through 2007, and by the Institute of Museum and Library Services since then.

The survey includes both questions required by the federal survey, and Arizona-only questions that help Arizonans better understand how their libraries serve their communities.

Information from previous collections can be found in several places:

Copies of the Arizona reports are available through the State of Arizona Research Library; a number of the reports have been digitized and are available on the Arizona Memory Project, <http://azmemory.azlibrary.gov/digital>.

Physical copies may be found at the State of Arizona Research Library, Polly Rosenbaum Archives and History Building; 1901 W. Madison St.; Phoenix, AZ 85009. For more information, see <https://azlibrary.gov/starl>.

**Arizona State Library, Archives and Public Records**  
**ARIZONA PUBLIC LIBRARY DATA REPORT**  
**With Definitions and Notes**  
**Reporting Period: July 1, 2016 to June 30, 2017**

**Deadline:** December 11, 2017

**Need Help:** Contact Chris Guerra, 602-542-6267, [cguerra@azlibrary.gov](mailto:cguerra@azlibrary.gov).

**Please Note:** You can find all of these definitions in LibPAS by clicking on the respective question number.

The Arizona State Library, Archives and Public Records participates in a national public library data collection system known as the Public Library Data Survey. The purpose of this system is to ensure the collection of comparable data in all states. The data is used for planning, research, evaluation, and policymaking decisions by federal, state, and local officials, professional associates, researchers, educators, local practitioners, and other interested users.

Please complete one report for your library or library system. The first nine sections ask administrative entity (single-entity library or library system) questions about legal structure, staffing, revenue, expenditures, electronic access. Then, section 10 asks for outlet (building or bookmobile) information on library materials and services. County Librarians: please complete a report for the library district office.

Definitions are important to ensure comparability of data from different libraries and states. For the most part, these definitions have been agreed to on a national basis. It is critical that you read and respond according to the definitions.

Reporting libraries should not leave any items blank. You should enter "0" if the appropriate entry for an item is zero or "none." Enter zero if you do not have this item, or do not spend money on this budgeted item. If you do not know the answer, or do not collect this data, check -1 (negative one). Educated estimates are important if exact data is not available. Indicate that your figure is an estimate by entering a federal note.

Items that ask for dollar amounts must be rounded to the nearest whole dollar. However, items such as FTE staff and hours of service may be reported with up to two decimal places.

An \* indicates that the question is part of the national survey, and the data is reported to the Institute of Museum and Library Services for inclusion in the national data set. Questions without an \* are Arizona-only.

SECTION 3: CLASSIFICATION AND STRUCTURE	
<b>3.01 Interlibrary Relationship Code*</b>	
Select one of the following:	

- HQ – Headquarters of a Federation or Cooperative. The library or entity that provides the physical space and staff who manage, coordinate, or administer the programs of the federation or cooperative.  
Note: Agencies that serve other libraries rather than the public should not be reported to FSCS.
- ME – Member of a Federation or Cooperative. An autonomous library joined by formal or informal agreement(s) with (a) other autonomous libraries in the same state to perform various services cooperatively, such as resource sharing, communications, etc., and (b) libraries that are part of national, multi-state or statewide library federations or cooperatives. (Do not include OCLC.) Do not include multiple-outlet administrative entities (e.g., libraries with branches and that have the word “system” in their legal name) if the entity does not have an agreement with another autonomous library.
- NO – Not a member of a Federation or Cooperative.

### 3.02 Legal Basis Code\*

The legal basis is the type of local government structure within which the entity functions. It reflects the state or local law, which authorizes the library. Select one of the following:

- CC – City/County. A multi-jurisdictional entity that is operated jointly by a county and a city.
- CI – Municipal Government (city, town or village). A municipal government is an organized local government authorized in a state’s constitution and statutes and established to provide general government for a specific concentration of population in a defined area.
- CO – County/Parish. An organized local government authorized in a state’s constitution and statutes and established to provide general government.
- LD – Library District. A library district is a local entity other than a county, municipality, township, or school district that is authorized by state law to establish and operate a public library as defined by FSCS. It has sufficient administrative and fiscal autonomy to qualify as a separate government. Fiscal autonomy requires support from local taxation dedicated to library purposes (e.g., a library tax).
- MJ – Multi-jurisdictional. An entity operated jointly by two or more units of local government under an intergovernmental agreement which a jointly appointed board or similar means of joint governance; to be distinguished from a library which contracts to serve other jurisdictions and from special library districts. Note: Please put city/county combinations under ‘CC’, rather than under Multi-jurisdictional.
- NL – Native American Tribal Government. An organized local government authorized and established to provide general government to residents of a Native American reservation.
- NP – Non-profit Association or Agency. An entity privately controlled but meeting the statutory definition of a public library in a given state; includes association libraries and libraries with 501(c) designation.
- SD – School District. An organized local entity providing public elementary, secondary, and/or higher education which, under state law, has sufficient administrative and fiscal autonomy to qualify as a separate government. Excludes “dependent public school systems” of county, municipal, township, or state governments.
- OT – Other.

### 3.03 Administrative Structure Code\*

This code identifies an autonomous library entity (administrative entity) that has its own governance and funding.

An administrative entity is the agency that is legally established under local or state law to provide public library service to the population of a local jurisdiction. The administrative entity may have a single outlet, or it may have more than one outlet.

Select one of the following:

- MA – Administrative Entity with Multiple Direct Service Outlets where Administrative Offices are Separate. An administrative entity that serves the public directly with two or more service outlets, including some combination of one central library, branch(es), bookmobile(s), and/or books-by-mail only. The administrative offices are separate from the direct service outlets and do not provide direct library services.
- MO – Administrative Entity with Multiple Direct Service Outlets where Administrative Offices are Not Separate. An administrative entity that serves the public directly with two or more service outlets, including some combination of one central library, branch(es), bookmobile(s), and/or books-by-mail only.
- SO – Administrative Entity with a Single Direct Service Outlet. An administrative entity that serves the public directly with one central library, books-by-mail only, or one bookmobile.

### 3.04 FSCS Public Library Definition\*

Answer <Y>es or <N>o to the following question: “Does this public library meet all the criteria of the FSCS public library definition?”

A public library is an entity that is established under state enabling laws or regulations to serve a community, district, or region, and that provides at least the following:

- ✓ An organized collection of printed or other library materials, or a combination thereof;
- ✓ Paid staff;
- ✓ An established schedule in which services of the staff are available to the public;
- ✓ The facilities necessary to support such a collection, staff, and schedule; and
- ✓ Is supported in whole or in part with public funds.

Note: If the library meets all of the requirements of this definition, respond with a <Y>es. If the library does not meet one or more of the requirements, respond with a <N>o.

### 3.05 Geographic Code (State Supplied)\*

The State Library selects the geographic code from among the following Census supplied options:

- CI1 – Municipal Government (city, town or village) (exactly)
- CI2 – Municipal Government (city, town or village) (most nearly)
- CO1 – County/Parish (exactly)
- CO2 – County/Parish (most nearly)
- MA1 – Metropolitan Area (exactly)
- MA2 – Metropolitan Area (most nearly)
- MC1 – Multi-County (exactly)
- MC2 – Multi-County (most nearly)
- SD1 – School District (exactly)
- SD2 – School District (most nearly)
- OTH – Other

### 3.06 Legal Service Area Boundary Change\*

Answer <Y>es or <N>o to the following question: “Did the administrative entity’s legal service area boundaries change since last year?”

*Note:* Changes are likely to result, for example, when a municipality annexes land, when one municipality in a county becomes either an independent city or its own county necessitating its exclusion from the first county’s geography, or when an administrative entity contracts to provide public library service for some additional geographic area other than the geographic area for which it was established (e.g., a municipal library contracts to serve county residents).

### 3.07 Population of the Legal Service Area (State Supplied)\*

The number of people in the geographic area for which a public library has been established to offer services and from which (or on behalf of which) the library derives revenue, plus any areas served under contract for which the library is the primary service provider.

Note: The determination of this population figure is the responsibility of the state library agency.

### 3.08 Number of Central Libraries\*

This is one type of single outlet library (SO) or the library, which is the operational center of a multiple-outlet library (MO or MA). Usually all processing is centralized here and the principal collections are housed here. This is synonymous with main library.

Note: Each administrative entity may report either no central library or one central library. No administrative entity may report more than one central library. In the administrative entity file, this simply means reporting “0” or “1” for central library. Where two or more libraries are considered “centrals” for state or local purposes, one central library and one or more branch libraries should be reported to FSCS. If you wish to identify a central library in the outlet file, identify the library with the largest collection as the central library for FSCS purposes, and report all others as branches. Where there are several co-equal outlets and no principal collection, report all such outlets as branches, not central libraries.

### 3.09 Number of Branch Libraries\*

A branch library is an auxiliary unit of an administrative entity which has at least all of the following:

- ✓ Separate quarters;
- ✓ An organized collection of library materials;
- ✓ Paid staff; and

- ✓ Regularly scheduled hours for being open to the public.

### 3.10 Number of Bookmobiles\*

A bookmobile is a traveling branch library. It consists of at least all of the following:

- ✓ A truck or van that carries an organized collection of library materials;
- ✓ Paid staff; and
- ✓ Regularly scheduled hours (bookmobile stops) for being open to the public.

## SECTION 6: PAID STAFF

Report the total number of budgeted full-time equivalent positions for each category. To ensure comparable data, 40 hours per week has been set as the measure of full-time employment (FTE). To calculate this number, add the average number of

hours worked by each person per week and divide by 40. For example, if you have three people who work 40 hours, 30 hours, and 19 hours, you would total these numbers (40 + 30 + 19) and divide by 40. You would report 2.25 FTEs.

Report figures as of the last day of the fiscal year. Include all positions funded in the library's budget whether those positions are filled or not.

**6.01 FTE Positions of Librarians with a Master's Degree (ALA-MLS)\***

These are librarians with master's degrees from programs of library and information studies accredited by the American Library Association.

**6.02 FTE Positions of Librarians\***

<b>9.02 Number of Online Catalog Searches</b>	
Total number of searches made to the library's online catalog, either in the library or remotely.	
<b>9.03 Number of Visits to the Library's Website</b>	
<p>Visits represent the number of individual sessions initiated by all visitors to your site. A visit/session ends when someone closes their browser or stops loading webpages on the website for a period of time (typically when more than 30 minutes elapses between page views, but this is arbitrary).</p> <p>A visit is usually determined by each user's unique IP address, and/or their login account name when they are accessing secure parts of the website. The details for website visits/sessions are contained within the access log file for the web server(s) and may be accessible using log file analysis or web analytics reporting tools.</p> <p>Virtual visits include a user's request of the library website or catalog from outside the library. A single visit to a website may involve loading of numerous webpages or gratuitous elements (images, style sheets, etc.).</p>	
<i>LICENSED DATABASES</i>	
<p>Report the number of licensed databases (including locally mounted or remote, full-text or not) for which temporary or permanent access rights have been acquired through payment by the library (directly or through a cooperative agreement within the state or region), or acquired by formal agreement with the State library. A database may be issued on CD-ROM, diskette, or other direct access method, or as a computer file accessed via dial-up methods or via the Internet. Subscriptions to individual electronic serial titles are reported under Current Electronic Serial Subscriptions. Each database is counted individually even if access to several databases is supported through the same vendor interface.</p> <p>Report the number of licensed databases acquired through payment or formal agreement, by source of access:</p>

An electronic collection may be organized, curated and electronically shared by the library, or rights may be provided by a third party vendor. An electronic collection may be funded by the library, or provided through cooperative agreement with other libraries, or through the State Library. Do not include electronic collections that are provided by third parties and freely linked to on the web.</p> <p>Electronic Collections do not have a circulation period, and may be retained by the patron. Remote access to the collection may or may not require authentication. Unit records may or may not be included in the library's catalog; the library may or may not select individual titles. Include electronic collections that are available online or are locally hosted in the library.</p>	
<b>9.07 Successful Retrieval of Electronic Information</b>	
The number of full-content units or descriptive records examined, downloaded, or otherwise supplied to user, from online library resources that require user authentication but do not have a circulation period. Examining documents is defined as	

having the full text of a digital document or electronic resource downloaded or fully displayed. Some electronic services do not require downloading as simply viewing documents is normally sufficient for user needs.

### SECTION 9A: DOWNLOADABLE E-BOOKS

E-books are digital documents (including those digitized by the library), licensed or not, where searchable text is prevalent, and which can be seen in analogy to a printed book (monograph). E-books are loaned to users on portable devices (e-book readers) or by transmitting the contents to the user's personal computer for a limited time. Include e-books held locally and remote e-books for which permanent or temporary access rights have been acquired. Report the number of electronic units, including duplicates, at the administrative entity level; do not duplicate unit count for each branch. E-books packaged together as a unit (e.g., multiple titles on a single e-book reader) and checked out as a unit are counted as one unit.

**Vendor** – List the vendor.

**Consortium** – Indicate whether the purchase is part of a consortial or collaborative purchase.

**Units\*** -- Report the number of units. Report only items that have been purchased, leased or licensed by the library, a consortium, the state library, a donor or other person or entity. Included items must only be accessible with a valid library card or at a physical library location; inclusion in the catalog is not required. Do not include items freely available without monetary exchange. Do not include items that are permanently retained by the patron; count only items that have a set circulation period where it is available for their use. Count electronic materials at the administrative entity level; do not duplicate numbers at each branch.

NOTE: For purposes of this survey, units are defined as "units of acquisition or purchase". The "unit" is determined by considering whether the item is restricted to a finite number of simultaneous users or an unlimited number of simultaneous users.

Finite simultaneous use: units of acquisition or purchase are based on the number of simultaneous usages acquired (equivalent to purchasing multiple copies of a single title). For example, if a library acquires a title with rights to a single user at a time, then that item is counted as 1 "unit"; if the library acquires rights to a single title for 10 simultaneous users, then that item is counted as 10 "units". For smaller libraries, if volume data are not available, the number of titles may be counted.

Unlimited simultaneous use: units of acquisition or purchase are based on the number of titles acquired. For example, if a library acquires a collection of 100 books with unlimited simultaneous users, then that collection would be counted as 100 "units".

If the content is provided through a consortium, indicate all titles available to the reporting library.

**Downloads\*** – The total number of downloads for the reporting library.

**SECTION 9B: DOWNLOADABLE AUDIO BOOKS  
AND  
SECTION 9C: DOWNLOADABLE MUSIC**

Audio – Downloadable Units may be loaned to users on portable devices or by transmitting the contents to the user’s personal computer for a limited time. Include Audio – Downloadable Units held locally and remote Audio – Downloadable Units for which permanent or temporary access rights have been acquired.

**Vendor** – List the vendor.

**Consortium** – Indicate whether the purchase is part of a consortial or collaborative purchase.

**Units\*** -- Report the number of units. Report only items that have been purchased, leased or licensed by the library, a consortium, the state library, a donor or other person or entity. Included items must only be accessible with a valid library card or at a physical library location; inclusion in the catalog is not required. Do not include items freely available without monetary exchange. Do not include items that are permanently retained by the patron; count only items that have a set circulation period where it is available for their use. Count electronic materials at the administrative entity level; do not duplicate numbers at each branch.

NOTE: For purposes of this survey, units are defined as “units of acquisition or purchase”. The “unit” is determined by considering whether the item is restricted to a finite number of simultaneous users or an unlimited number of simultaneous users.

Unlimited simultaneous use: units of acquisition or purchase are based on the number of titles acquired. For example, if a library acquires a collection of 100 books with unlimited simultaneous users, then that collection would be counted as 100 “units”.

**Downloads\*** – The total number of downloads for the reporting library.

**SECTION 9D: DOWNLOADABLE VIDEO**

These are downloadable electronic files on which moving pictures are recorded, with or without sound. Electronic playback reproduces pictures, with or without sound, using a television receiver, computer monitor or video-enabled mobile device. Include Video – Downloadable Units held locally and remote Video – Downloadable Units for which permanent or temporary access rights have been acquired.

**Vendor** – List the vendor.

**Consortium** – Indicate whether the purchase is part of a consortial or collaborative purchase.

**Units\*** -- Report the number of units. Report only items that have been purchased, leased or licensed by the library, a consortium, the state library, a donor or other person or entity. ## SECTION 10A: OUTLET INFORMATION

This section asks for outlet (building or bookmobile) information on library materials and services.

If your library is a single outlet (has only one building and no bookmobile), you will complete one outlet record for the library.

If your library has multiple facilities, complete an outlet record for each central, branch, bookmobile and direct mail service. If your library has a separate administrative office that has collections or services to the public, be sure to complete an outlet record for the administrative office. If the administrative office does not have collections or services to the public, you don’t need to complete an additional outlet record.

### IDENTIFICATION

#### 10A.02 LIB ID (State Assigned)\*

This is the state-assigned identification code for the outlet. Libraries may not edit this.

#### 10A.03 Library Name\*

This is the legal name of the outlet.

Note: Provide the legal name of the outlet. Do not use acronyms. Do not abbreviate the name unless it exceeds the WebPLUS field length of 60 characters. Avoid abbreviations at the beginning of the name and do not punctuate abbreviations.

**10B.08 Current Print Serial Subscriptions\***

Current serial subscriptions are arrangements by which, in return for a sum paid in advance, serials are provided for a specific number of issues. Include current serial subscriptions in print, electronic, and digital formats.

Report the number of current print serial subscriptions, including duplicates, for all outlets. Examples of serials are periodicals (magazines), newspapers, annuals, some government documents, some reference tools, and numbered monographic series.

*LIBRARY AVAILABILITY*

**10B.09 Public Service Hours per Year\***

This is the number of annual public service hours for outlets (reported individually by central, branch, bookmobile and Books-by-Mail Only).

Note: Include the actual hours open for public service for centrals, branches, and bookmobiles, and Books-by-Mail Only. For each bookmobile, count only the hours during which the bookmobile is open to the public. For administrative entities that offer ONLY books-by-mail service, count the hours that the outlet is staffed for service. Minor variations in public service hours need not be included. Extensive hours closed to the public due to natural disasters or other events should be excluded from the count.

**10B.10 Number of Weeks a Library is Open\***

This is the number of weeks during the year that an outlet was open to the public.

Note: Include the number of weeks open for public service for centrals, branches, bookmobiles, and Books-by-Mail Only. For each bookmobile, count only the weeks during which the bookmobile is open to the public. For administrative entities that offer ONLY books-by-mail service, count the weeks that the outlet is staffed for service. The count should be based on the number of weeks that a library outlet was open for half or more of its scheduled service hours. Extensive weeks closed to the public due to natural disasters or other events should be excluded from the count. Do not calculate based on total number of service hours per year at the outlet level. For example, by dividing total hours by 52 (weeks), round to the nearest whole number of weeks. If the library was open half or more of its scheduled hours in a given week, round up to the next week. If the

library was open less than half of its scheduled hours, round down.

#### **10B.11 Library Visits per Year\***

This is the total number of persons entering the library for whatever purpose during the year.

Note: If an actual count of visits is unavailable, determine an annual estimate by counting visits during a typical week in October and multiplying the count by 52. A "typical week" is a time that is neither unusually busy nor unusually slow. Avoid holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or the library. Choose a week in which the library is open its regular hours. Include seven consecutive calendar days, from Sunday through Saturday (or whenever the library is actually open).

### *REFERENCE AND CIRCULATION TRANSACTIONS*

#### **10B.12 Reference Transactions\***

Reference Transactions are information consultations in which library staff recommend, interpret, evaluate, and/or use information resources to help others to meet particular information needs.

A reference transaction includes information and referral service as well as unscheduled individual instruction and assistance in using information sources (including web sites and computer-assisted instruction). Count Readers Advisory questions as reference transactions.

Information sources include (a) printed and non-printed material; (b) machine-readable databases (including computer-assisted instruction); (c) the library's own catalogs and other holdings records; (d) other libraries and institutions through communication or referral; and (e) persons both inside and outside the library.

When a staff member uses information gained from previous use of information sources to answer a question, the transaction is reported as a reference transaction even if the source is not consulted again.

If a contact includes both reference and directional services, it should be reported as one reference transaction. Duration should not be an element in determining whether a transaction is a reference transaction.

Note: It is essential that libraries do not include directional transactions in the report of reference transactions. Directional transactions include giving instruction for locating staff, library users, or physical features within the library. Examples of directional transactions include, "Where is the reference librarian? Where is Susan Smith? Where is the rest room? Where are the 600s? Can you help me make a photocopy?"

If an annual count of reference transactions is unavailable, count reference transactions during a typical week or weeks, and multiply the count to represent an annual estimate. [If the sample is done four times a year, multiply totals by 13, if done twice a year multiply by 26, if done only annually, multiply by 52.] A "typical week" is a time that is neither unusually busy nor unusually slow. Avoid holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or in the library. Choose a week in which the library is open its regular hours.

#### **10B.13 Circulation Transactions (Physical)\***

The total annual circulation of all physical library materials of all types, including renewals.

Note: Count all physical materials in all formats that are charged out for use outside the library. Interlibrary loan transactions included are only items borrowed for users. Do not include items checked out to another library.

#### **10B.14 Circulation Transactions (Children's Materials)\***

This is the total annual circulation of all children's materials in all formats to all users, including renewals.

### *LIBRARY PROGRAMS*

A program is any planned event which introduces the group attending to any of the broad range of library services or activities or which directly provides information to participants. Programs may cover use of the library, library services, or library tours. Programs may also provide cultural, recreational, or educational information, often designed to meet a specific social need. Examples of these types of programs include film showings, lectures, story hours, literacy, English as a second language, citizenship classes, and book discussions.

Count all programs, whether held on or off-site, that are sponsored by or co-sponsored by the library. Exclude programs sponsored by other groups that use library facilities.

If programs are offered as a series, count each program in the series. For example, a film series offered once a week for eight weeks should be counted as eight programs.

*Note:* Exclude library activities delivered on a one-to-one basis, rather than to a group, such as a one-to-one literacy tutoring, services to homebound, resume writing assistance, homework assistance, and mentoring activities.

**10B.15 Library Programs for Children (0-11)\***

This is the number of programs held for young adults between the ages of 0-11.

A children's program is any planned event for which the primary audience is children and which introduces the group of children attending to any of the broad range of library services or activities for children or which directly provides information to participants. Children's programs may cover use of the library, library services, or library tours. Children's programs may also provide cultural, recreational, or educational information, often designed to meet a specific social need. Examples of these types of programs include story hours and summer reading events.

Count all children's programs, whether held on or off-site, that are sponsored or co-sponsored by the library. Do not include children's programs sponsored by other groups that use library facilities. If children's programs are offered as a series, count each program in the series. For example, a story hour offered once a week, 48 weeks a year, should be counted as 48 programs. Exclude library activities for children delivered on a one-to-one basis, rather than to a group, such as one-to-one literacy tutoring, services to homebound, homework assistance, and mentoring activities.

**10B.16 Library Programs for Young Adults (12-18)\***

This is the number of programs held for young adults between the ages of 12-18.

A young adult program is any planned event for which the primary audience is young adult and which introduces the group of young adults attending to any of the broad range of library services or activities for young adults or which directly provides information to participants. Young adult programs may cover use of the library, library services, or library tours. Young adult programs may also provide cultural, recreational, or educational information, often designed to meet a specific social need. Examples of these types of programs include book clubs and summer reading events.

Count all young adult programs, whether held on or off-site, that are sponsored or co-sponsored by the library. Do not include young adult programs sponsored by other groups that use library facilities. If young adult programs are offered as a series, count each program in the series. For example, a book club offered every two weeks, 24 weeks a year, should be counted as 24 programs. Exclude library activities for young adults delivered on a one-to-one basis, rather than to a group, such as one-to-one literacy tutoring, services to homebound, homework assistance, and mentoring activities. This figure is a subset of the Total Number of Library Programs.

**10B.17 Library Programs for Adults (19 and Up)**

This is the number of programs held for adults ages 19 and up.

**10B.18 Total: Library Programs (Calculated)\***

This is the calculated total for all programs entered.

**10B.19 Story Time Programs for Children**

This is the number of story time programs held for children, primarily between the ages of 0-5. Count multi-age and family story times, if they are appropriate for children ages 0-5.

*LIBRARY PROGRAM ATTENDANCE*

**10B.20 Children's Program Attendance (0-11)\***

This is the number of people in attendance at programming for young adults ages 0-11.

This number is not automatically calculated, so you may enter a number here even if you have entered one for the two questions above.

The count of the audience at all programs for which the primary audience is children 11 years and under. Include adults who

attend programs intended primarily for children.

*Note:* Do not count attendance at library activities for children that are delivered on a one-to-one basis, rather than to a group, such as one-to-one literacy tutoring, services to homebound, homework assistance, and mentoring activities.

**10B.21 Young Adults Program Attendance (12-18)\***

This is the number of people in attendance at programming for young adults ages 12-18.

The count of the audience at all programs for which the primary audience is young adults aged 12 to 18 years and includes 18 year olds. Include adults\* who attend programs intended primarily for young adults.

*Note:* Do not count attendance at library activities for young adults that are delivered on a one-to-one basis, rather than to a group, such as one-to-one literacy tutoring, services to homebound, homework assistance, and mentoring activities.

\*Please count all patrons that attend the young adult programs regardless of age.

**10B.22 Adult Program Attendance (19 and Up)**

This is the count of the audience at all programs for which the primary audience is adults. Include young adults and children who attend the programs intended primarily for adults.

**10B.23 Total: Library Programs Attendance (Calculated)\***

This is the calculated value for all program attendance entered.

**10B.24 Story Time Programs for Children Attendance**

This is the number of attendees at story time programs held for children, primarily between the ages of 0-5. Count attendance at multi-age and family story times, if they are appropriate for children ages 0-5. Include all attendees regardless of age.

*COMPUTER INFORMATION*

**10B.25 Number of Internet Computers Used by General Public\***

Report the number of the library's Internet computers [personal computers (PCs) and laptops], whether purchased, leased, or donated, used by the general public in the library.

**10B.26 Uses (Sessions) of Public Internet Computers per Year\***

Report the total number of uses (sessions) of the library's Internet computers in the library during the last year. If the computer is used for multiple purposes (Internet access, word-processing, OPAC, etc.) and Internet uses (sessions) cannot be isolated, report all usage. A typical week or other reliable estimate may be used to determine the annual number. Sign-up forms or Web-log tracking software also may provide a reliable count of uses (sessions).

*Note:* The number of uses (sessions) may be counted manually, using registration logs. Count each use (session) for public internet computers, regardless of the amount of time spent on the computer. A use (session) on the library's public internet computer(s) three times a year would count as three uses (sessions). Software such as "Historian" can also be used to track the number of uses (sessions) at each public internet computer. If the data element is collected as a weekly figure, multiply that figure by 52 to annualize it.

*Reminder:* This count includes only the library's Internet computers. Do NOT include Wi-Fi access using non-library computers.
